MODERN **TILT & TURN** SERIES 1210

European-Inspired Design. Modern Elegance. Exceptional Functionality.

The 1210 Series combines sleek aluminum profiles and expansive glass with versatile tilt-and-turn functionality. Tilt for gentle ventilation or swing open for maximum airflow and easy cleaning. Designed for contemporary homes, it delivers exceptional performance, enhanced security, and modern style.

ADVANCED PROTECTION
Enhanced security and peace of mind.

ELEGANT EUROPEAN DESIGN
Sleek profiles with premium architectural styling.

TILT & TURN FUNCTIONALITY
Easy ventilation and inward opening.

SUPERIOR THERMAL PERFORMANCE
Designed for year-round comfort and energy efficiency.

EXCEPTIONAL SOUND REDUCTION
A quieter, more peaceful indoor environment.

MULTI-POINT SECURITY
Reinforced locking for greater protection.

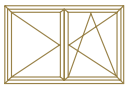

EXPANSIVE ARCHITECTURAL DESIGN
Large, uninterrupted glass areas with sleek, modern profiles for maximum views and natural light.

EASY CLEANING & MAINTENANCE
Inward opening for easy cleaning.

GLASS & GLAZING OPTIONS

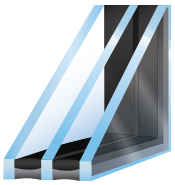

Built for Canada's toughest climates, Window City's double, triple, and quad-pane options—featuring advanced Low-E coatings, Argon gas fills, and laminated glass—deliver exceptional energy savings, year-round comfort, and elevated security.

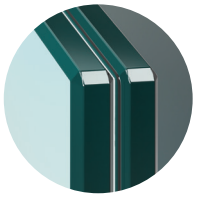

DOUBLE PANE
Excellent energy efficiency, lighter weight, and strong overall value for everyday performance.

QUAD PANE
Ultimate thermal performance, exceptional sound reduction, and maximum comfort for luxury high-performance homes.

TRIPLE PANE
Superior insulation, improved sound reduction, and enhanced year-round indoor comfort.

TEMPERED / LAMINATED
ENHANCED PERFORMANCE AND SECURITY ALL-IN-ONE
Upgrade your standard double, triple, or quad pane with tempered/laminated for a maximum safety, security, and better noise reduction.

CANADA'S **MOST ADVANCED** AND **AUTOMATED** WINDOW & DOOR MANUFACTURER
